

National Physician Survey, 2007. Results for Surgical Specialists.

Q6. Please specify the profession of your spouse/ partner.

Among all Surgical Specialists: Thirty-nine percent of physicians with a spouse/ partner indicated their profession. Among them, the most frequently indicated professions were: health diagnosing and treating occupations (43%, with the most common being physicians/surgeons (23%) and nurses (12%)), homemaking or retired (17%), education/training/library and museum occupations (9%), management occupations (7%).

Notes:

This question was asked only of those respondents who completed the long questionnaire.

The responding sample (size: n) has been weighted to represent the population (size: N). Further detail available at www.nationalphysiciansurvey.ca .
